Interned at Future Founders Build Your Own Boss internship to contribute to the initiative to build successful startups. Collaborated with various interns to gain hands-on experience in the development of startups. Engaged in strategic planning, market research, pitch developments,

Jun 2023 - Jun 2023

Scholar

Kode With Klossy & Girls Who Code

Selected as a Kode With Klossy & Girls Who Code Scholar, demonstrating coding skills and an interest in the STEM field. Engaged in coding workshop and collaborated with others to create a project about the Gender Pay Gap. Engaged with the Kode With Klossy community to immerse myself in the aspect of technology and computer science.

June 2024-August 2024

Participant

Kane's Data Science Bootcamp

Worked with Harvard Professor Preceptor David Kane with learning the introduction to Data Science Coding using R. We learned how to make websites, graph data, and use real time data to present trends within it. Worked with various peers and spend 10+ hours a week learning various topics and skills within R.

Mar 2023 - May 2023

Co-Founder

Computer Science Club

My sister and I co-founded a computer science club at our local middle school to educate middle-school students on the basics of computer science and javascript. At the end of the bootcamp, all students worked on an app in which they presented to the rest of the club. The club consisted of 30+ students.

Aug 2022 - Present

Volunteer

Sai Samsthan USA Temple

Volunteer at a local temple, helping with the distribution of food and helping spread the word about events in the Temple. Helping with different events in the temple.
